L. C. Allin, W. G. Chamberlain, C. G. Curtis, Joseph Hannis, C. W. Hartwell, S. Lehman, W. North, Isaac H. Smith, *Assistant Foreman.*

*We gather the following facts from the official "Report of Operations," for the fiscal year ending June 30, 1856.*

The operations for that year consisted largely of work preparatory to the manufacture, with rapidity and accuracy, of the new model Rifle Musket and Pistol Carbine, with Maynard's Patent Primer, which has required the fabrication of new tools or the alteration of old ones for every component part of these arms.

Three Rifle Muskets and three Rifle Pistol Carbines with their appendages, have been constructed with the greatest accuracy and in the highest style of the art, to serve as models or standards in the manufacture of all others. Among the principal results, we notice:

1003 Rifle Pistol Carbines complete, and components for 3000 more in progress.

5513 Guard Plates for Rifle Musket, model 1855.

6511 " Bows " " " "

5974 Swivels " " " "

8059 Cones " " " "

12493 Barrels " " " "

3721 Mid. Band Swivels " " " "

5926 Band Springs " " " "

2021 Ramrods " " " "

8177 Bayonets " " " "

&c., &c.

From 1,000 to 10,000 each, of the various appendages, Wipers, Screw-drivers, Ball Screws, &c., for the new model and the altered arms.

500 each Artillery Musketoons and Sappers do.

720 Cavalry Rifle Carbines.

1001 Muskets, model 1842, rifled and sighted, rear sights graduated from 100 to 1000 yards range, with a large number of components of the same model.

4441 Tools completed.

---

Several important machines, among them are 6 power, and 4 hand Rifling machines, completed.

A complete set of standard verifying and working gauges, made with the utmost accuracy.

A large amount of labor and time has been spent in perfecting and arranging the Machinery, Machine Fixtures, and Shop Fixtures, preparatory to the regular work of manufacturing the new arms to the best advantage.

The Iron Fence on the east side of Union Square has been completed, and the Armory Grounds have been kept in thorough repair.

THE NEW WATER SHOPS belonging to the Armory, were, at the close of the last fiscal year, in a state of progress, as rapid as was compatible with thoroughness and durability. Up to that time some 40,000 cubic yards of earth had been excavated, and 22,500 cubic yards of rock cutting, 11,493 perches stone masonry dry and laid in cement, and 292,000 bricks laid in cement and mortar, accomplished.

Since that period the work has been carried vigorously forward, and it is hoped and expected that another year will suffice for the completion of this, one of the most important and beautiful works of the city.

We are happy to learn that several hundred of the new Rifle Muskets have been completed, and that there is no obstacle, at present perceived, to the completion of a number of thousands of these highly finished and effective arms during the year 1857.

A very desirable and valuable improvement which has been contemplated for several years past, will soon be effected. We refer to the construction of a highway on the west and north sides of the Armory Grounds on the Hill. This will not only be a very great convenience to the Armory and to the whole of that part of the city, but with the addition of five or six acres of land, recently purchased for this purpose, at the north west angle of the enclosure, will add greatly to the symmetry and beauty of the public possessions in our city.

This Company having been organized according to the terms of its Charter, is now prepared to issue policies on lives, on terms made especially favorable to the assured.

The greatest risk on a single life will be \$5000.

Surplus distributed among the members every fifth year from August 1851, according to the provisions of the Act of Incorporation.

Premiums, when desired, may be paid semi-annually or quarterly.

Information given, and circulars containing important and useful information furnished gratis, to those who call at the office of the Company, or of its accredited agents or will be sent by mail, if written for post-paid.

Messages transmitted by this system with the greatest accuracy  
and rapidity—being printed in plain ROMAN CAPITALS—thus saving  
the time, and avoiding the great liability of error in copying.

This line connects with all lines in the United States, Canadas,  
& Eastern British Provinces, embracing over six hundred stations.

Messages forwarded to this office by mail or express, will be  
promptly dispatched.

Tariff of prices to the following places 25 cents first ten words.  
Each added word 3 cents.

Boston, Providence, Southbridge, Attleboro, Hartford,  
Middletown, New Haven, Bridgeport, Portches-  
ter, New York.

*The new direct line to the West, via Westfield, Chester  
Factories, Pittsfield, Chatham, Greenbush, Troy and  
Albany is now open.*

# The Union Telegraph Company.

OFFICES IN SPRINGFIELD,

Main Street, opposite Exchange Hotel,  
And in the Massasoit House.

The main lines of this Company consist of *five* wires between New York and Boston, on two distinct routes—one via Stamford, New Haven, Hartford, Springfield and Worcester, following the line of the railroad; the other via Bridgeport, Norwich, N. London, and Providence, by the turnpike. Its branches extend from Boston to Lowell and Nashua; from Providence to Warren and Bristol, R. I.; from Worcester to Milbury and Milford; from Boston to Pawtucket, Taunton, Fall River, New Bedford and Newport. Its connections at New York are with the Albany and Buffalo Morse Line, (the only direct line to the West,) with the Southern and Western lines; and at Boston, with the principal line running to the Canadas.

The lines of the Union Telegraph Company, although so numerous, and covering such a wide and extended territory, are nevertheless kept at all times in such perfect condition as to insure to the public the object for which they were established, viz. "*reliability.*" It is the determination of the managers of these lines, to give the public such facilities as can be offered by no other line, for the prompt transmission of all business intrusted to its charge, inasmuch as the means are within their control.

☞ Tariff to all points upon the main lines, 25 cents for first ten words, and 3 cents for each additional. To all places beyond this Company's line, the tariff is invariably as low as by any other route. For further information apply at the offices.

— AND —

MILLINERY ESTABLISHMENT,  
NO. 7 State Street,

CONDUCTED ON THE

ONE PRICE SYSTEM AND NO CREDIT.

We have not only the experience of many *Respectable Merchants* who have adhered strictly to these terms, but the testimony of our own experience is sufficient evidence to teach us that it is the *only* safe, sure, and satisfactory method of doing business.

Disgusted with the low bantering method of trading, and believing it beneath the dignity of any man aiming at success, and an untarnished reputation, to do business on a system that obliges him to ask 50 per cent. over the selling prices of his goods, leaving the purchasers altogether upon their own judgment, and in ninety-nine cases to one, deceive themselves. While on the other hand, by the

ONE PRICE SYSTEM.

Which shall be carried out by us with fidelity, all obtain goods at the same prices. No one, however inexperienced, will be liable to pay above the **LOWEST MARKET PRICES**, which shall always be marked in plain figures on each article, so that

**ONE PRICE LOWEST MARKET PRICES.**

We wish to thank our many kind friends for their very liberal support during the past year, and to assure them of our intention to pursue the above course that has hitherto given such great satisfaction.
